

Monthly Indicators

Lincoln Area Region

October 2023

U.S. sales of existing homes recently fell to a 13-year low, dropping 2.0% month-over-month and 15.4% year-over-year as of last measure, according to the National Association of REALTORS® (NAR), as surging interest rates and elevated sales prices continue to make homeownership unaffordable for many prospective buyers. Purchase activity is down significantly compared to this time last year, but rising interest rates are also keeping many current homeowners from selling, causing inventory to remain at historically low levels nationwide.

New Listings decreased 31.7 percent for New Construction but increased 14.8 percent for Existing Homes. Pending Sales decreased 12.5 percent for New Construction and 18.9 percent for Existing Homes. Inventory decreased 19.6 percent for New Construction but increased 64.3 percent for Existing Homes.

Median Closed Price increased 0.4 percent for New Construction and 7.3 percent for Existing Homes. Days on Market decreased 13.5 percent for New Construction but increased 36.4 percent for Existing Homes. Months Supply of Inventory decreased 3.2 percent for New Construction but increased 90.0 percent for Existing Homes.

Total housing inventory going into October was at 1.13 million units, up 2.7% from the previous month but down 8.1% compared to the same time last year, for a 3.4 months' supply at the current sales pace, according to NAR. The shortage of homes for sale is making it harder for buyers to find a home to purchase while at the same time pushing sales prices higher nationwide, with the median existing-home sales price rising 2.8% annually to \$394,300, the third consecutive month of year-over-year price increases.
