

# Monthly Indicators

Lincoln Area Region

## February 2025

U.S. existing-home sales fell for the first time since September, slipping 4.9% month-over-month to a seasonally adjusted annual rate of 4.08 million units, according to the National Association of REALTORS® (NAR), as elevated home prices and higher interest rates continue to impact buyer activity. Despite the drop, sales were up 2% compared to the same period last year, marking the fourth consecutive monthly year-over-year increase.

New Listings increased 15.2 percent for New Construction but decreased 10.3 percent for Existing Homes. Pending Sales decreased 25.4 percent for New Construction but remained flat for Existing Homes. Inventory increased 19.5 percent for New Construction but decreased 0.3 percent for Existing Homes.

Median Closed Price decreased 2.2 percent for New Construction and 1.1 percent for Existing Homes. Days on Market increased 57.9 percent for New Construction and 4.0 percent for Existing Homes. Months Supply of Inventory increased 32.1 percent for New Construction but remained flat for Existing Homes.

The limited number of properties for sale has continued to push home prices higher nationwide. At last measure, the national median existing-home price was \$396,900, a 4.8% increase from one year earlier, with prices up in all four regions, according to NAR. Meanwhile, total housing inventory heading into February stood at 1.18 million units, up 3.5% month-over-month and 16.8% year-over-year, for a 3.5-month supply at the current sales pace.
